

# THE ETHICAL FASHION SOURCE EXPO

## VISITOR INFORMATION

**17<sup>th</sup> and 18<sup>th</sup> October 2011**  
Sadler's Wells, EC1, London, UK

## The SOURCE EXPO – the only fashion industry trade show dedicated to ethical sourcing

The SOURCE EXPO showcases inspirational suppliers and manufacturers from all over the world, working to fair trade, ethical and organic standards, linking them directly with hundreds of designers, retailers and brands.

Now in its third season, the event includes a programme of seminars, introducing new products and exemplary supply and production systems, a Designer Pavilion showcasing some of the most inspirational design led fashion from around the world and a trends area.

## Why visit at the Ethical Fashion SOURCE Expo?

The Ethical Fashion Source Expo is designed for representatives of businesses of all sizes, designers, entrepreneurs, and researchers who want to develop and produce fashion collections made to high ethical standards or want to explore new sourcing routes. It is also relevant to students, graduates, professionals, consultants, and interested individuals wanting to increase their knowledge of the sector.

- Save time and money by liaising face to face with exemplary suppliers brought together in one place from all over the world.
- Traditionally, sourcing to high ethical standards has been time consuming and resource intensive for fashion designers, retailers and brands. This event aims to cut through the barriers and make it easy for you.
- The event is running in partnership with the Fair trade Foundation, World Fair Trade Organisation and Textiles Exchange. Through linking exemplary suppliers to trade buyers, it is already creating sustainable livelihoods for thousands of people in ethical supply networks and reducing the impact of the fashion industry on the environment.
